LIGHTING DAYS 2017: THE RENDEZ-VOUS 100% LIGHTING

In 2017, with the gathering of the leading exhibitions in France on the lighting market, **ForumLED Europe, Full LED Expo and Forum LumiVille**, we are introducing “**Lighting Days**” that will gather 3 international events in France dedicated to LED technologies, and indoor & outdoor lighting which will be held on **13 th & 14 th December, at the Cité Centre des Congrès, Lyon – France.**

Lighting Days 2017 offers 2 days of exhibitions, conferences, **BtoB Business Meetings, a Startup area, International Pavilions** dedicated exclusively to lighting and LED technology professionals.

This meeting will be the place to meet lighting specialists and discover their products and innovative solutions in **LED technologies, indoor LED lighting, outdoor lighting, public lighting or even smart lighting.**

This year's edition awaits more than **150 exhibitors and 2500 professionals & international visitors.**

> EXHIBITIONS : FROM TECHNOLOGY TO APPLICATIONS

By combining the leading lighting exhibitions in France, **ForumLED Europe, Full LED Expo and Forum LumiVille, Lighting Days** will showcase the latest innovations in lighting and technology in one same place.

... LED TECHNOLOGY

The 9th edition of the International Congress / Expo entirely dedicated to LED technology

The Congress / Expo ForumLED Europe has for more than 8 years brought together the whole ecosystem of LED technology and has become the leading event on the subject in Europe. The exhibition will bring together professionals, manufacturers and users for LED technologies and LED lighting systems and equipment.

www.forumled.com

... INDOOR LIGHTING

The 100% indoor LED lighting trade fair

All solutions for indoor LED lighting, in one event. Important developments in LED technology open up a huge field of applications in the lighting sector. Full LED Expo is the place to discover the latest innovations on the only French trade fair dedicated to LED lighting. And it's value in all fields of applications and uses.
